

NOV 3 1983

Reconnaissance Inspections at Dioxin Sites

Samuel L. Nott, Chief
Superfund Enforcement Section (6AM-SE)

Dave Peters, Chief
Hazardous Waste Section (6ES-SH)

During review of the November and December Regional FIT workplan, I noticed reconnaissance inspections were still scheduled for the following sites:

Monsanto-Chocolate Bayou, Tx (Tx 213) TOD R-6-8306-7
Monsanto-Texas City, Tx (TX 2374) TOD R-6-8306-35
Monsanto-Luling, La (La 787) TOD R-6-8306-36
Great Lakes Chemical, Ar (AR 78) TOD R-6-8306-33

These sites were included in the Region's attempt at a dioxin strategy. Since that time, the National Dioxin Strategy has taken precedence over any regional strategy and the regional strategy has been merged with the national strategy. Therefore please cancel the reconnaissance inspections scheduled for these facilities.

Should you have any questions please contact Bonnie Devos at X79705.
